

Catherine Reid
Executive Assistant
BC Patient Safety & Learning System (BC PSLS)

Email: Catherine.Reid@phsa.ca

Reception: 604-877-6420

Catherine joined BC PSLS in October 2014 as Executive Assistant for Central Office. She works directly with BC PSLS operational leaders, Technical Support and the Quality Assurance team. Her history with PHSA dates back to the pre-online days of incident reporting and learning in BC healthcare. After taking time away to raise a family, she's happy to be back in the field of quality improvement and operational support.

Catherine earned a Bachelor's degree in BioMedical Ethics from the University of Toronto. Prior to joining BC PSLS, Catherine provided administrative support to Quality, Safety and Risk Management and the C&W Ethics Program at Children's & Women's Health Centre of BC. She was also Administrative Secretary for BC Children's, BC Women's and Sunny Hill Health Centre and provided support to the Ethics, Quality of Care and Morbidity and Mortality committees.

“Returning to a program that was part of my academic passion and early career endeavours is rejuvenating. It’s exciting to see the growth and maturity of an online incident reporting system that’s now available province-wide. I feel proud to support BC PSLS projects that are helping to improve patient health and safety.”
